***2006 Best Business Department on Long Island!**

Awarded by the New York State Department of Education 2006

In the William Floyd School District, the Business Education course opportunities are available to all students in grades 9 through 12. Business Education courses assist in preparing students to enter post-secondary education and/or career level employment in the 21st century. Academic skills and concepts are integrated into each course curriculum and are illustrated through the utilization of "hands-on" instruction.

- Build a Foundation in Business which will include (1) business awareness, (2) computer technology and (3) skills for employment.
- Develop an awareness of, and confidence in, what they can accomplish.
- Acquire career information.
- Develop human relations and communication skills.
- Develop leadership skills and self-esteem through participation in business clubs and the School-to-Work program.
